DECIDE ON PEACE WITHOUT THE U.S.

Supreme Peace Council to Put Pact Into Effect December 1.

BONAR LAW FIGHTS DELAY

Can't Delay Action on Ratification of the Treaty Any Longer-No Slackening in England's Determination to Take Lead.

Paris, Nov. 24,-The supreme council agreed upon December 1 as the date when the German peace treaty will be formally ratified.

Further informal discussions have been held with the German representatives now here in connction with the notification by the allies that a protocol must be signed by Germany guaranteeing fulfillment of the armistice conditions. These discussions have been confined chiefly to the methods of procedure in considering the As yet the Germans have protocol. The American delegation is still without instructions as to its participation in the peace conference, following the failure of the senate to ratify the treaty, but Henry White attended the meeting of the supreme council as representative of the United States, rsecretary Polk being absent in London, and the entire delegation is continuing its work in the belief that a compromise ratification resolution will be agreed to in the United States

This view is apparently shared by most of the members of the council who are anxious for a continuance of the United States in the deliberations of the peace-making body. The council, however, is working out plans so that the enforcement of the treaty will not be hindered if the United States falls to ratify the treaty later.
